

GPON ONT

i5200-series

Residential Open Access ONT

The Icotera i5200-series residential ONT series is designed as a long-term GPON termination point in a two-box installation. Optional CATV, ITU-T OMCI standards-compliant provisioning, a vendor-independent approach, and easy installation together with Icotera's focus on design and usability make the i5200-series an obvious choice for GPON fiber termination.

- Aesthetic design
- Vendor-independent provisioning and management
- Lowest total cost of ownership
- Designed for long-lifetime installations

Full Flexibility

Together with the vendor independent provisioning and management, the i520x-20 creates the standards setting for a residential Open Access ONT. The i5200-series is designed for a common patch installation, where the ONT is mounted directly on the wall.
